I am not a Commie, I am a Federalist, and I am pointing out that had that portion of California not been under the control of Deep State Secessionist, not only would the Governor not have been hesitant o request Aid from the "evil" POTUS (therefore costing valuable time), he would have received it immediately.

Funny how "wealth" works.

Without california, the midwest would thrive, 2nd biggest freshwater source in the world with millions of acres of lush farmland, without the midwest, california would starve and burn, they would try to trade with other countries, but have no bargaining power because other countries know they NEED the food.

Correct.
We are also purging the rest of the inactive voters from the roles in california.
The margin Hillary won by in Cali was the exact total of inactive voters.
Bye bye blue state.

Ex Cali fag here.

More than just red states hate you, retard. Everyone in Cali itself that isn't in one of the metro shitholes wants you city faglickers to sink into the sea.

If things went hot tomorrow, rural Cali would turn on you bot fags instantly with backing from red states. It wouldn't be very hard to cut off the metro areas from food and other necessities and to keep you within your containment zone.

Then, all anyone has to do is watch as the 3rd world hordes you've invited into your cities burn them to the ground.

My popcorn is ready.

The 6.4 and 7.1 were nukes under the China Lake naval base, emplaced via the new generation battle moles. Too coincidental regarding the location; the base is toast going by reports.

Almost everyone thinks it's natural, but those in the know know it's not, but no one can do anything because of the few causalities and if US citizens knew they were nukes, well there you go.

The only problem with a US sub loss is that we'd hear about it and it'd be an "accident". Governments can't hide losses from family, not can they shut all of them up; someone would leak something.

Hence, I think AS-12 got hit doing shady shit in US waters, the mothership ran home at flank, and this caused the whole Putin emergency meeting.

They then detonated 2 of their moles under a naval base, which would be seen as a natural disaster by the MSM.

The only way I'd be happy with lifting sanctions against Iran is if they nuke California. If they did that, they'll have proven they want peace with the US.

Trump should hold Cali hostage for funding
>drop all active suits against the administration
>outlaw sanctuary cities
>help build the wall

debt ridden fags in california would rather take a hand out from the whole nation than actually have to part with the shekels of the billionaire jews who all live there.

Because all your west coast activist judges stonewall any federal laws that would improve this country and break the Democrats hegemony. Not to mention you faggots flee the rotting carcass of your state that you caused only to do it again elsewhere.

I've seen its true face. The cities are extended gutters, and the gutters are full of blood, and when the drains finally scab over all the vermin will drown. The accumulated filth of all their sex and murder will foam up about their waists and all the whores and politicians will look up and shout save us! And Trump will whisper... no

>what is SALT?
>why will california never again report that they're a net tax surplus?
they were stealing gibs from the rest of the republic, anon, by making their state taxes a federal write-off.
the whole narrative about them being a tax surplus state is a lie.
